Defect Title Didn't send any email to reset my password

Defect Description When I enter my email to reset my password through the **"Forgot Password?"** link, the system should send a password reset link to my email, but it doesn't send any email, so I can't reset my password.

Steps to reproduce

1. Click URL **"magento.softwaretestingboard.com"** (URL must be right or valid).
2. Click the **"Sign In"** link
3. Click **"Forgot Your Password?"**
4. Enter a valid **email**.
5. Click the **"Reset My Password"** button.
6. Check your Email Box.

Expected Result

An email with a password reset link should be sent to the email inbox for resetting the password.

Actual Result

The system didn't send any password reset link to my email inbox.

Evidence/attachment

SS:

If there is an account associated with swostikamagar098@gmail.com you will receive an email with a link to reset your password.

Defect Title After completing a purchase, the system displays a "pending" order status.

Module affected Sign In Page

Reporter Swastika Thapa

Reported on 26-05-2024

Status New

Assigned To Developer ABC

Defect Description The system displays a **"Thank you for your purchase!"** message after checkout, but the order status in the user's account page shows as **"pending."**

Steps to reproduce

1. URL: magento.softwaretestingboard.com
2. Open the website.
3. Navigate to the Product Page
4. Select a specific product.
5. Click the cart icon.

- 6. Click the **Proceed to Checkout** button.
- 7. Fill up the shipping address.
- 8. Select shipping method
- 9. Click next button
- 10. Click the **Place to Order** button.

Expected Result After a successful purchase, the order status should update to reflect that (e.g., "processing," "shipped").

Actual Result After a successful purchase, the system displays "**Thank you for your purchase!**", while the product status display "**pending**" implies the order is still being processed or not yet confirmed.

Defect Description

When I select a different colour for the product, only the main image changes. The remaining images don't update to show the chosen colour.

Steps to reproduce

1. URL: magento.softwaretestingboard.com
2. Open the website.
3. Navigate to the home page.
4. Hover on women
5. Click to tops>>Jacket
6. Click on Juno Jacket
7. Choose the green colour.

Expected Result

Product colour needs to change with all product image angles.

Actual Result

When I select a colour, only the main product image changes. The remaining images, showing the product from different angles, don't update to reflect the chosen colour.

Status New

Assigned To

Developer ABC

Defect Description

The system displays two shipping methods: **Table Rate** and **Flat Rate**. However, when I select the Table Rate option, the system automatically reverts the selection to Flat Rate. Only one shipping method is automatically chosen for my order. I cannot select another shipping option.

Steps to reproduce

1. URL: magento.softwaretestingboard.com
2. Open the website.
3. Navigate to the Product Page
4. Select a specific product.
5. Click the cart icon.
6. Click to Proceed to Checkout button.
7. Fill up the shipping address.
8. Select the table rate method

Expected Result

The system functionality should allow users to choose the table rate shipping option.

Actual Result

Two shipping methods are listed, but only the **Flat-rate** shipping method is automatically selected. You cannot choose another option.

Defect Description	<p>"Update Wishlist" button on the Wishlist page currently does not redirect the user to a separate update page as expected. Instead, the user remains on the same Wishlist page without any visual indication of an update happening.</p>
---------------------------	--

Steps to reproduce

1. Open website with valid URL
2. Navigate to Home page
3. Click any specific product.
4. Click heart icon.
5. Click on my account
6. Click on my Wishlist product
7. Click Add update Wist list button.

Expected Result

Clicking 'Update Wishlist' should redirect to a dedicated page for editing Wishlist items."

Actual Result

After clicking "Update Wishlist" doesn't redirect to a separate update page. It remains on the current Wishlist page.

Defect Description

When a user attempts to share a Wishlist product, the system displays a success message stating "Your Wishlist has been shared" but, the intended recipient does not receive an email notification informing them about the shared product.

Steps to reproduce

1. Open website with valid URL
2. Navigate to Home page
3. Click any specific product.
4. Click heart icon.
5. Click on my account
6. Click on my Wishlist product
7. Click Share Wist list button.

Expected Result

When you share a product, the recipient should receive an email notification letting them know about the shared item.

Actual Result

The system displays a "**Your Wishlist has been shared**" message after clicking the share button, but the recipient doesn't receive an email notification about the shared product.

Defect Title 'Position' Sorting Not Functional"

Module affected	Home/Women/Tops/ Hoodies & Sweatshirts
-----------------	--

Reporter Swastika Thapa

Reported on	26-05-2024
Status	New
Assigned To	Developer ABC
Defect Description	The "Position" sorting option within the dropdown menu on the product page is currently malfunctioning. Clicking the up/down arrows next to "Position" does not sort products as intended.
Steps to reproduce	<ol style="list-style-type: none">1.Open website with valid URL2. Navigate to home page3. Hover women>top> Hoodies & Sweatshirts4. Click the Hoodies & Sweatshirts5. Click dropdown icon at top right corner.6. Select position7. Click upside and downside arrow
Expected Result	Sorting by position using the up/down arrows in the dropdown menu. Sorting should be ascending/descending.
Actual Result	Clicking the up/down arrows next to the "Position" option in the dropdown menu doesn't sort products as expected. Products remain in their original order.

Defect ID

U_107

Defect Title

Excessive whitespace, inconsistent image sizing, or lack of product spacing

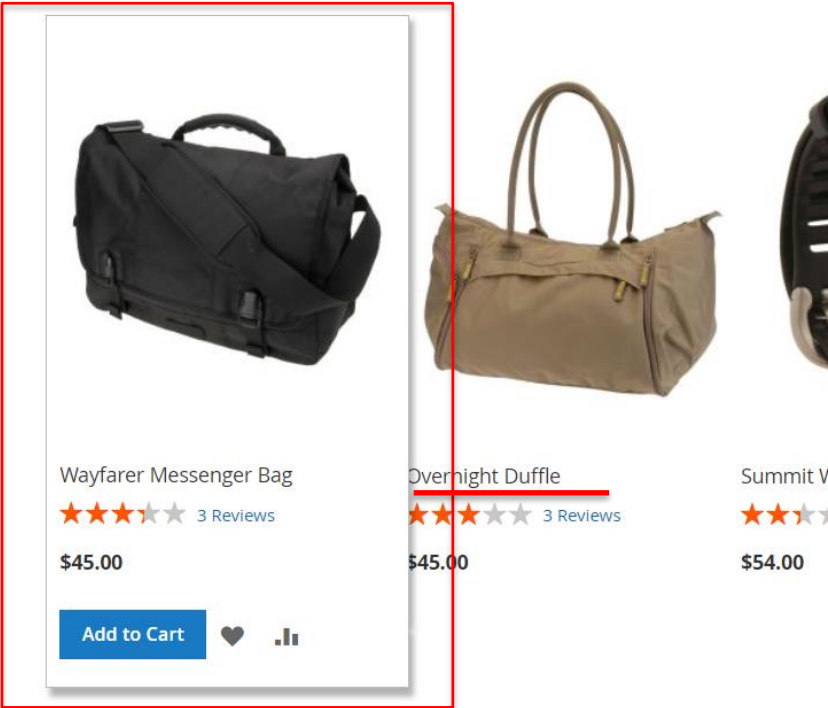

Module affected	UI Design
Reporter	Swastika Thapa
Reported on	26-05-2024
Status	New
Assigned To	Developer ABC
Defect Description	UI layout presents inconsistencies that affect its visual appeal and bad UI.
Steps to reproduce	1.Open website with valid URL 2. Observe the UI of every page
Expected Result	The UI should have good contrast between text/elements and the background, utilize clear and consistent fonts, and provide adequate space around content (text, buttons, images) and products for a balanced, readable layout.
Actual Result	Though fonts and colours look good, the layout feels messy. There's too much empty space, product pictures are different

sizes, and they even overlap because they're too close together. This makes it hard to use the page.
